

F A R M - T E C

Kett TR-200 Rice Husker

The TR-200 is an electronic rice husker device designed to prepare samples of brown rice for testing in an electrical resistance rice/wheat moisture tester. It's extremely easy to operate - simply press a button and put 20g of unhusked rice in the hopper. In no time at all the husking will be performed, and the brown rice and chaff will be clearly separated.

Specifications	TR-200
Appropriate Moisture Range	12-18%
Sample Weight and Test Time	Approx. 20 g/60 seconds
Safety Feature	Overload automatic shutdown device
Power Source	AC100V(50/60Hz)
Dimensions & Weight	205(W)X130(D)X130(H)mm, 1.8kg
