

Check weather

Fill air cart tank with seed

Attach tractor to air cart

Apply fertilizer

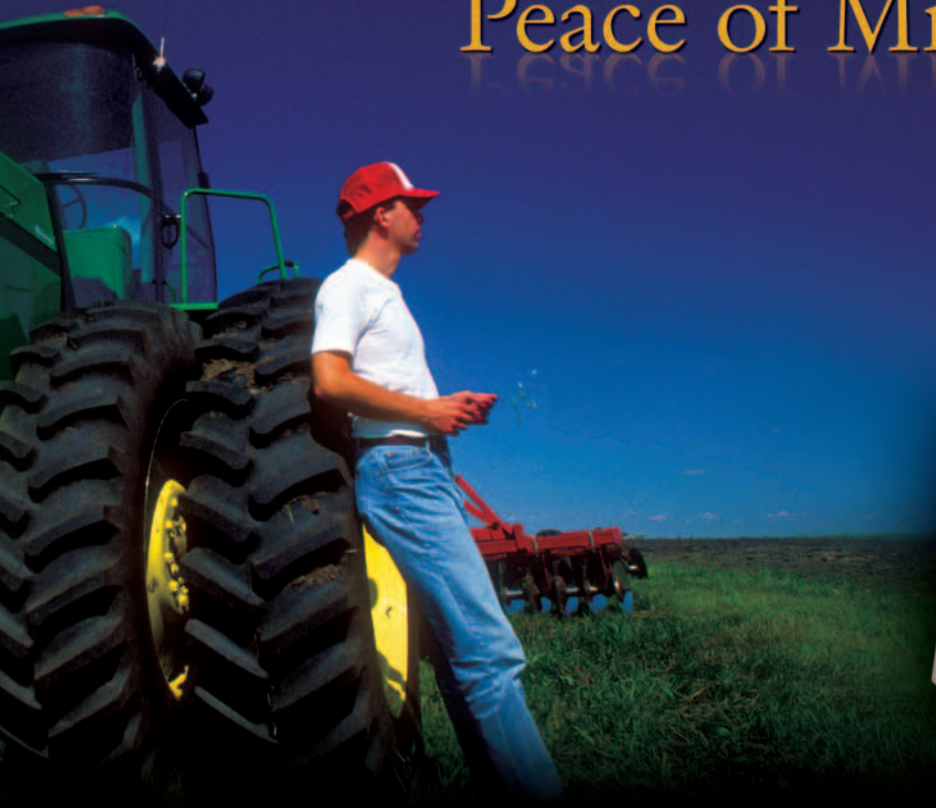

Determine prescription

Order anhydrous

Buy supplies

Test soil for fertilizer application

Peace of Mind

DICKEY-john is making life easier for farmers everywhere. And the new IntelliAg™ is a big reason why. It gives you a complete suite of intelligence for planting, spreading, spraying, and granular fertilizing. Add to that the power of Trimble's market-leading AgGPS® Autopilot automated steering system, and you have true, state-of-the-art precision.

DICKEY-john and Trimble—working together to bring you peace of mind.

- The quality and performance of a major OEM supplier
- ISOBUS compatibility
- The teamwork of Dickey-john and Trimble Navigation
